General Information

Task	Process Information
Creating an Express PO (Purchase Order)	An Express PO is a purchase order created for items less than or equal to $2,500 (or less than or equal to $500 for District Court). This document also serves as a formal purchase order for Blanket Contract vendors requiring one. **NOTE - for AOC, Circuit Courts, Appellate Courts, and Programs:** Per the FY15 Procurement Policy Change, Express POs will no longer be REQUIRED for purchases under the State Contracts/BPOs for purchases less than or equal to $2,500. These contracts include Rudolph's Office Supply, Staples, MD Correctional, etc. A voucher (non-PO voucher) can be processed without adding an Express PO. Express POs are optional for these Contracts/BPOs. You may continue to create Express POs if they meet the business practices of your Court or Program, or if they are requested by the vendor. Express POs will continue to be REQUIRED for purchases under the Judiciary Blanket Contracts as a way for the DPCGA to track the contract values. They are also REQUIRED for any purchases under State Contracts/BPOs for purchases over $2,500. Please always refer to the complete list of Contract/BPOs for the most current information on requirements for Express POs, which can be found on the GEARS Tip Sheet page. Please be sure to use the exact Vendor ID referenced on the Contract/BPO listing. **NOTE – for District Court:** District Court will continue to REQUIRE Express POs for purchases under the State Contracts/BPOs and the Judiciary Contracts/BPOs.

If you do NOT know the GEARS Vendor ID to be used on the voucher, you can look it up using the vendor's Tax ID Number. If the Vendor ID is known and has been reviewed for accuracy, you can skip this step and enter the Vendor ID in step 3 below. **Note:** Please verify the vendor address to be sure it is accurate. If not, please complete a Vendor Maintenance Form and send it to the Department of Budget and Finance (DBF). The form is available on the GEARS website: http://mdcourts.gov/gears/forms.html
